

# Cables

USB-C™ | Lightning | Micro B | Multi-connector

In today's world, mobile devices rule! We use them for emails, taking photos and videos, internet browsing, purchasing goods, listening to music and podcasts, engaging in social media, and of course making and taking phone calls!

They are power-hungry, and it is often crucial that these important gadgets are quickly charged and put back to work as soon as possible.

Verbatim's comprehensive line-up of cables are made with premium materials including PVC reliefs and tough stainless steel casing to survive the demand of our modern lifestyles.

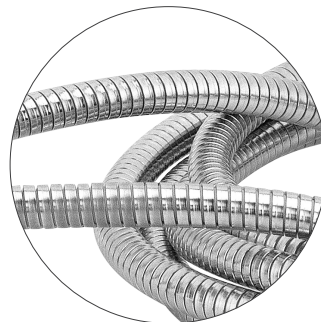

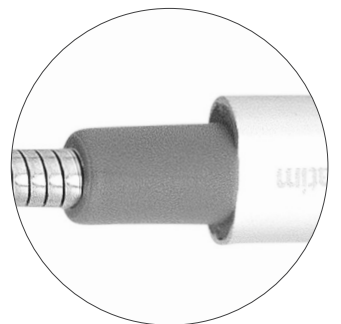

The Lightning cables are all certified by Apple to meet the performance standards for iPods, iPhones and iPads, and the new range of Tough Cables made with DuPont™ Kevlar® aramid fibre technology includes a reinforced core for extra strength.

It's technology you can trust. Verbatim cables won't break down on you when you need them most.

Premium aluminium connector cover

PVC cable reliefs to protect the connection points

Extremely tough and fully flexible stainless steel cable

## USB-C™ to Lightning Stainless Steel Sync & Charge Cable USB 3.1 GEN 2

- Compatible with smart phones and tablets with USB-C™ and Lightning connectors
- MFI Certified using Apple's licensed technology to connect electronically to an Apple host device
- Supports USB 3.1 GEN 2 with speeds up to 10GB/s\*\*
- 3A fast charging of your device
- Extremely tough and fully flexible stainless steel cable
- Sync & charge: charging and data transfer functions

Part no.	Length	Colour	Barcode	EAN 128 Outer / Inner	EAN 14 Outer / Inner
48877	100cm	Silver	023942488774	(02)00023942488774(37)40(91)221 (02)00023942488774(37)10(91)221	50023942488779 20023942488778

\*Optimal speed requires both devices on either ends of the cable to support USB 3.1 GEN 2. Data transfer speed will be as per the lower USB specification (480MB/s for USB 2.0, 5GB/s for USB 3.0) if they are not USB 3.1 GEN 2.
