

Record your memories

The previous year has been unique and will go down in history. Many of us recorded these unprecedented moments in photos and videos. From homeschooling and rainbows to empty streets and mask-wearing heroes. In years to come we can look back on these photos and share our memories of these crazy times.

Photographs preserve these important moments, events and people in our lives. The ceremonies of birth and birthdays, marriages and anniversaries, holidays and new houses are all recorded because they matter. Photographs are our personal story, a timeline of our lives filled with faces and places that we love.

How you capture, save and take care of these photos is therefore pretty important. Shouldn't you be using technology you can trust?

-  Shock resistant
-  Water resistant
-  Temperature resistant

Flash Memory Cards

Pro

- Give Pro level performance to action cameras, HD camcorders, advanced cameras, smartphones and tablets
- UHS Speed Class 3 (U3) rating means you can capture 4k ultra HD and Full HD video then transfer quickly to your computer for viewing and editing
