

Need ideas for Christmas presents? How about some tech?

Helping people stay connected and capturing and sharing memories has been very important for people this year, so technology that can help this should make for a great Christmas present.

With all the photos and videos taken over the year and Christmas period, getting a SSD or hard drive to save and backup all those precious files would be a great idea.

Or, if you know someone who's recently purchases a sleek new laptop, then they'll probably need a USB-C hub or adapter to connect all their other devices to.

And, if you want to bring some colour to someone's life this Christmas, why not choose from our range of colourful USBs and travel mice.

Here are a just few suggestions, but take a look at Verbatim's full range - there will be something there for you.

SSD and Hard Drives to backup your precious memories

Our latest Mini SSD and ALU Hard Drive are a great idea to store and backup your memories - whether you need to save your family photos, videos from your past holidays, or memorable times you have spent together with your friends, these devices are ideal for saving large files and data quickly and easily.
