

# Working remotely?

Setting up correctly can be the key to your success

Remote working has been a developing trend for some time now and we are seeing an increase in the number of employees working from home. However, this can be a real challenge.

It's likely that you need to make adjustment to the way you work and how you interact with your family, friends and coworkers.

What's also important is to have a comfortable set up for you to work, together with all the necessary equipment.

Having the right devices on hand to keep you connected, working efficiently, and reliably backed up can be vital.

Verbatim's range of storage and accessory products give you peace of mind that your equipment will be there for you when you need it most!

# Storage Solutions

## Internal SSDs

By replacing an old HDD or SSD with a new high performance SSD from Verbatim, you can dramatically boost your system performance making your PC start up faster, programs feel much more responsive and allow more efficient multi-tasking when working from home.

# Data Security

## SECURITY

Are you handling data outside of the office?  
Use encrypted solutions to be compliant and secure.

**AES** stands for Advanced Encryption Standard. It is a symmetric block cipher that is adopted throughout the world to encrypt sensitive data.

**256-bit** refers to the length of the encryption key used to encrypt a data stream or file. A hacker or cracker will require  $2^{256}$  different combinations to break a 256-bit encrypted message.

AES has never been cracked and is safe against any brute force attacks.

$2^{256} = 115,792,089,237,316,195,423,570,985,008,687,907,853,269,984,665,640,564,039,457,584,007,913,129,639,936$

AES-256 bit encrypted products to keep your work data safe and secure at all times

Cursor comfort - mice in different sizes and designs

## Mice

Working from home may mean you start working longer hours behind your laptop or PC. In addition to taking regular breaks, you may need a comfortable mouse to work with.

Verbatim's 8-Button Deluxe Wireless Optical Desktop Mouse has a smooth ergonomic design and contoured shape with an easy-grip surface to ensure that the user remains comfortable after hours of computing. If you want something more colourful, the Go-Nano is specially designed for comfort and control with a smooth, textured grip.

What is more, both mice are wireless, minimising any cable mess at your home office desk!
